

The graph displays four data series, each representing a different route. The horizontal axis is labeled from 200 to 550 in increments of 50. The vertical axis is unlabeled. The routes are defined by the following approximate data points:

Route	X-axis Value	Y-axis Value (approx.)
route 1 (blue)	275	2.5
	280	3.5
	285	3.0
	290	3.5
